FORM **3547** REQUESTED

Cover: Reading left to right — Paul Fulwood III, Paul Fulwood, Jr. and P. D. Fulwood, Sr.

It is with regret that we advise you of the death of P.D. Fulwood Sr. on June 7, 1960. He passed away very suddenly of a heart attack after a busy day in his office. Mr. Fulwood was written up in Time Magazine a few years ago as the founder and leader of the plant industry in Georgia and established his business in 1909.

Paul D. Fulwood Jr. will continue to operate the plant farm as president and general manager. He has been active in the business since finishing college in 1936, and has been active manager for the past ten years.

We pledge our efforts to give you the very best plants and service possible.

P. D. Fulwood Company

52 Years of Satisfactory Service

We guarantee all of our plants to be exactly as described in this Catalog. Fresh pulled day order is shipped and packed to carry to your home in good condition; claims to the contrary must be made immediately upon receipt of plants. You will receive full count, no runts, no diseased plants. We grow our plants from the very best seed obtainable. We use seed from Ferry-Morse Seed Co., W. Atlee Burpee Seed Co., and Associated Seed Growers.

We send you only the highest quality plants and gladly stand back of them. After the plants are delivered in good condition, the future progress, thereof is beyond our control and further results cannot be guaranteed. Weather, soil and care also influence crops, so in no case shall we be responsible for any amount beyond the purchase price.

P. D. FULWOOD COMPANY

We Appreciate Your Order—It Will Receive Prompt Attention
Planting and growing instructions sent free with each order.

"Just wish to tell you I ordered 1 1/2 Doz. of your Giant Hybrid Climbing Tomato Plants last year. Had bushels of tomatoes, large and smooth and plants 18 Ft. high. Was the grandest sight with tomatoes from a foot above the ground to the very top of the vines until frost. People came to see them Fair Week from Texas, Oklahoma and all around. Marveled at the beautiful tomatoes and took pictures of them. Thanking you a lot."

W.A.Mc., Sedalia, Missouri

READ WHY THOUSANDS OF CUSTOMERS PREFER FULWOOD'S FIELD GROWN VEGETABLE PLANTS

For 52 Years we have been growing the very finest, field-grown vegetable plants and shipping to all parts of the United States.

You will find us well rated in the following reference books. Dun and Bradstreet, Inc.; The Packer Red Book; The Produce Reporter Blue Book. Our local bank—The Bank of Tifton.

We use the very best seed from such well known firms as W. Atlee Burpee Seed Company, Ferry-Morse Seed Company and Associated Seed Growers.

We use hybrid seed wherever possible. Vegetables from hybrid seed grow faster, produce more and better flavored vegetables than other varieties and over a longer period. Hybrid seed cost more—some as much as \$60.00 an ounce. Therefore, we have to charge more for these hybrid plants. You will find these plants are worth more.

Our plants are grown in the open field and on sterilized soil. They are weather hardened, sturdy plants that grow and produce better than hot-house or home grown plants.

Pyramid Garden Bed with 100 All Red Strawberry Plants \$12.95 Postpaid

Practical and good-looking Pyramid Garden Beds are the answer. You can enjoy a large yield of Strawberries in one-third the space required by conventional garden methods. They keep the Strawberry Plants elevated pyramid fashion for quicker and bigger harvests. Easy to pick from; simple to care for. The bottom ring is 6 feet in diameter with three planting terraces.

FULWOOD'S CABBAGE PLANTS

READY SEPT. 1ST. TO JUNE 15TH.

FROST PROOF

Certified by
State Department
of Entomology

Earliest Golden Acre and Earliest Round Red Cabbage

EARLIEST ROUND RED: 64 days, 2 lb. head. Colorful variety and just right for making red slaw and adding color and taste to mixed salads. Heads globular and weigh 2 lbs. at maturity, rich purplish-red. Heads begin forming early and are suitable for use when very small. This makes it ideal for long picking season.

EARLY COPENHAGEN: 66 days, 3 lb. head. Most widely used shipper where earliness is essential. Uniformly round and firm with clean white interiors. Gray-green leaves.

GOLDEN ACRE: 65 days, 3 lb. head. Uniformly round, clear white interiors.

FERRY'S ROUND DUTCH: 71 days, 5 lb. head. Shows considerable tolerance to mildew injury and cold weather. Almost ball shaped, firm high quality. Slow to develop seeders.

CHARLESTON WAKEFIELD: (Y. R.) 71 days, 4 lb. head. Sharp head variety desirable for home garden.

EARLIEST GOLDEN ACRE: (Y. R.) 53 days, 3lb. head. Yellows resistant. The earliest cabbage known. Best for the home garden. Can be set in the southern states from September to April and in northern states during March, April and May.

RESISTANT DETROIT: (Y. R.) 68 days, 3½ lb. head. Yellows Resistant strain of the Golden Acre. Slightly later and larger.

MARION MARKET: (Y. R.) 72 days, 4 lb. head. Similar to Copenhagen Market, but larger and later maturing plant. Heads round and firm.

GREENBACK: (Y. R.) 74 days, 5½ lb. head. A new cabbage in the Round Dutch class. Slow to produce seed stalks. Especially recommended in market and shipping for areas infected by Yellows.

RESISTANT GLORY: (Y. R.) 77 days, 6½ lb. head. Heads round and firm.

COLLARD PLANTS: Vates — Delicious boiling greens. You gather the lower leaves and boil them. Plants continue to grow until heavy freeze.

PRICES: Same as Cabbage Plants—See below.

FULWOOD'S ONION PLANTS

GENUINE FROST PROOF

Ready Oct. 1 to June 1

These are frost-proof and can stand temperatures as low as 20 degrees. Will produce 4 to 6 weeks earlier than onions grown from seed or onion sets.

CRYSTAL WHITE WAX

Very early flat onion. Flesh white, sweet and mild.

YELLOW SWEET SPANISH (UTAH STRAIN)

Bulbs very large, globular, deep amber-orange; flesh white, firm and mild.

YELLOW BERMUDA (EXCEL 986)

Bulbs rather small, flat, light yellow; mild, white flesh.

WHITE SWEET SPANISH (UTAH STRAIN)

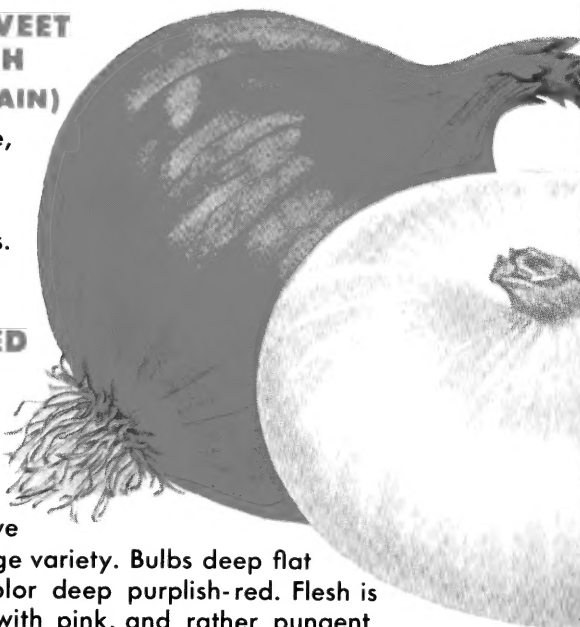

Very large,
globular,
glistening
white bulbs.

EARLY RED SALAD ONION

Adapted to
all sections.

Very productive

and fair storage variety. Bulbs deep flat shape, skin color deep purplish-red. Flesh is white tinged with pink, and rather pungent. Makes a very colorful salad or slaw. Can be used in sandwiches and cooking.

LETTUCE PLANTS

Field grown plants—Ready March 1st to June 15th.

PLANTS FROST PROOF

GREAT LAKES 6238: Is resistant to tip burn and stands up well in hot weather. Will stand 20 degrees. Makes head in about 65 to 70 days. Use very rich soil. Will grow well in all parts of United States.

Use our convenient order-blank envelope enclosed.

"Have planned to write you about the tomato plants for some time. I was the only one with the Fulwood tomatoes around here and at frost I have 2 or 3 bushels of large green tomatoes, blooms and lots of small ones. Several want me to order for them which I will do."

T.C., Obion, Tennessee

BROCCOLI PLANTS

FROST PROOF

Ready March 1st. to June 1st.

DeCICCO: An extremely early strain producing large heads ready for market ten days to two weeks ahead of Early Green Sprouting. Also furnishes a high percentage of side shoots or sprouts excellent for bunching or for freezing. Plants medium tall, light green in color, and very productive. Our stock of this strain has been carefully selected for uniformity and can be highly recommended as the best early strain of Broccoli obtainable.

Best varieties selected to produce well in all parts of the United States.

See rates for shipments by airplane on pages 16 and 17.

Do not order plants C. O. D. as this will cost more money and shipments are sometimes delayed.

"I want you to know the tomato plants I ordered from you last year were the best I ever raised. We had tomatoes to eat all summer and for company, and I canned several jars. They were a real beauty in my flower garden."

B.S., Okmulgee, Oklahoma

"Please send the Cabbage and Onion Plants as soon as you can. We have a very short season. I had a splendid crop of Big Boy Tomatoes. My stakes 6 Ft., they grew like grapefruit in bunches 5 and 6 together and weighed 14 to 16 ounces each. My friends had some up till Christmas. Never tasted anything like them."

R.J.M., Macgregor, Minn.

ORNAMENTAL HOT PEPPER PLANTS

Ready March 1st. to June 1st.

Plants Sturdy, Well-Rooted, Colorful and Decorative

A fascinating, colorful, potted house plant. Compact plants with a profusion of cone-shaped fruit that is first green, later turning purple and then red. Can be used for seasoning. Set plants in pots for a beautiful, decorative house plant. (Use pot measuring 6 to 10 inches across). Will last for several years if watered and cared for properly.

Can be planted in the yard in flower bed after danger of cold weather—will make colorful border. Will have white blossoms, green, yellow, purple and bright red fruit all at the same time.

Now YOU CAN GROW TINY COCKTAIL TOMATOES IN THE HOUSE IN FORTY FIVE DAYS.....

Ready March 1st. through June

FIELD GROWN WELL ROOTED HARDY PLANTS

SHIPPED READY FOR POTTING

A novel miniature tomato that can be raised as a colorful plant in the home in a flowerpot 6 to 9 inches, or in a window box. Dwarf and compact, growing to a height of 6 to 8 inches and only about 14 inches across. This is the earliest of all tomatoes and is loaded with clusters of bright red fruit that are nearly round and are $\frac{3}{4}$ to 1 inch across. Tomatoes have fine flavor and are ideal for garnishing, or in salads. Very colorful when potted and a pretty sight in flower garden, too. Can be put in the yard after danger of cold weather.

Sensational **F₂ OF HYBRID CLIMBING TOMATO PLANTS**

Carolyn Fulwood, Daughter of Paul Fulwood, Jr. gathering tomatoes from vines that grew 15 ft. tall in our trial grounds in 1959.

**HEAVY BEARING TILL FROST! BEAUTIFUL!
DELICIOUS! EASY TO GROW! WELL ROOTED
OPEN FIELD GROWN PLANTS! EARLY TO BEAR!
BIG JUICY TOMATOES**

PLANTS READY TO SHIP IN MARCH, APRIL, MAY AND JUNE!

Amazing F₂ of Hybrids bear heavily right up to frost—Beautify fences, trellises with bushels of juicy, best-tasting tomatoes. Fragrant, colorful—You get guaranteed healthy, well rooted plants that will give you bushels of tomatoes and continue to bear fruit all summer long until frost. Plenty of big, delicious, firm, juicy tomatoes for your table month after month, with enough left over for relatives and friends. You haven't tasted good tomatoes until you eat home grown, vine ripened tomatoes.

TAKE LITTLE SPACE—NEEDS VERY LITTLE CARE!

These genuine F₂ of the Hybrid Climbing Tomatoes climb up fences and trellises—or staked, they make beautiful borders. No stooping, no bending to pick them. No midseason droop like ordinary tomato plants! You can grow delicious tomatoes on vines 10 to 15 feet tall.

PRICES: See Page 11 FOR CLIMBING TOMATO PLANT PRICES

"I ordered 12 of your Hybrid Tomato Plants from an ad in the Detroit News last Spring. When they started blooming, my husband looked at them and told me I was going to have enough tomatoes to supply the neighborhood. Well, he was right. I never saw so many tomatoes in all my life. I picked from 50 to 100 at a time at least twice a week. Every visitor that left my house carried a bag of ripe tomatoes. And my husband left for the office nearly every day with a bag or basket full for the fellows he works with. I still can't get over it. Oh yes—2 of my 12 plants were on the puny side, but I soon got them going, and they paid me for my patience with them."

BURPEE'S BIG BOY®

GIANT F-1 HYBRID TOMATO PLANTS

Field Grown Plants — Ready March,
April, May and June.

NOT FROST PROOF

Plants grown from originator's seed stock. A true first generation hybrid from hand pollenizing each flower.

BURPEE'S BIG BOY® GIANT HYBRID TOMATO: 78 days. Largest of our hybrid tomatoes, Big Boy is famous for its large fruits weighing up to 2 lbs. and more, with many weighing 1 lb. Perfectly smooth, firm, scarlet-red, thickwalled fruits with meaty flesh of fine flavor. These sturdy hybrid plants grow faster, bear heavier, and for a longer season. You haven't tasted good tomatoes until you eat home grown vine ripened tomatoes. Plants grown from Burpee's Big Boy® Giant F-1 Hybrid Tomato Seed that retail at about \$60.00 per ounce.

"My husband ordered cabbage plants from you back in year 1910 and we have still been ordering. I am ordering some more as your plants are really fine and I am well pleased with them."

S.M., Pittsburg, Texas

FULWOOD'S *Certified* TOMATO PLANTS

Not Frost Proof

Certified by the State Department of Entomology
Ready March 1st to June 30th

TOMATO VARIETIES:

FIREBALL: Earliest Tomato Known. 62 days. Vines small and open and can be set 1½ to 2 feet apart. Early blossoms set large clusters even in cool weather and fruit ripens quicker from pale green to bright red. They are good size smooth, globe shaped and are unusually firm. Flavor is mild—not acid or sour.

VALIANT: 69 days. Adapted to short season areas and early market. Plant sparse and open; fruits bright scarlet; large globe shaped.

RUTGERS: 80 days. An excellent all-purpose variety. Partially resistant to fusarium wilt. Fruit globular, bright red, smooth, with thick walls and small seed cells.

WILT RESISTANT TOMATO VARIETY:

CAMPBELL'S NO. 146: (W.R.) 75 days. A standard (Rutgers) type vine, medium early large globular fruit (larger and deeper than Rutgers), fusarium wilt and mosaic resistant with some resistance to cracking. A very good tomato for the market trade and garden use, particularly in wilt infested soils.

"I'm ordering four dozen tomato plants for myself and neighbors. I've always had such good luck with your plants. They are the best I've ever eaten and bear more than I know what to do with."

C.C., Euclid, Ohio

Use our convenient order-blank envelope enclosed.

SHIPPING INFORMATION

All Plants Are Packed And Shipped The Same Day They Are Pulled

Small orders for plants are shipped by parcel post. Be sure to note that all parcel post prices quoted are postage prepaid. Do not order plants C.O.D as this will cost you more money and shipments are sometimes delayed.

We ship by Railway Express and Truck Loads. We load hundreds of trucks coming to our fields every season.

Orders of 5,000 plants or more can be shipped by Air Freight. You can order plants one day and get them the next day at your nearest major airport. It will cost 50% to 75% more for air transportation than railway express.

For packing and shipping our plants we use special made boxes for Parcel Post, Express and Air shipments. We use the best packing methods which have been tested and recommended by the U. S. Department of Agriculture.

Our farms join fences with the Georgia Costal Plain Experiment Station and the Georgia Department of Entomology. We have their constant advice and supervision and inspection service.

If you mail your order well in advance — stating the date you want shipment made—it will help us to give you better service.

We guarantee the plants to reach you in fresh planting condition.

Do not order plants C. O. D. as this will cost you more money and shipments are sometimes delayed.

AIRPLANE DELIVERY ON PLANTS

AIR SHIPMENT of vegetable plants in lots of 5,000 or more can be shipped to any major airport in the United States that has regular daily passenger service. Charges are 50% to 75% higher than Railway Express but you get overnight delivery in most cases. Plants will arrive as fresh as when pulled from the field. If you live in driving distance of any airport listed below you can pick up your plants at the airport.

All plants weigh from 15 to 20 lbs. per thousand except onion plants which weigh approximately 6 lbs. per thousand. You will only be charged for the actual weight of the plants.

Only hand graded plants shipped by Air as this saves you weight and air freight.

We Can Ship Plants by Airplane to the Cities Listed Below:

Per 100 Lbs.

FULWOOD'S PLANT AIDS

FOR BETTER GARDENING

ALL PURPOSE TOMATO AND GARDEN DUST SPRAY

In squeeze duster, 8 oz. size, postpaid \$1.29
One pound can (Enough to refill your squeeze
duster twice), postpaid 1.50

Blossom-set

Make TOMATOES Ripen
1 to 3 WEEKS EARLIER!

You'll pick RIPE tomatoes. WEEKS EARLIER than your neighbor! BIGGER yields of LARGER, MEATIER, more DELICIOUS TOMATOES, SEEDLESS TOMATOES, too!

NO-SEED HORMONE

Easy To Use!

Just Spray!

STOPS BLOSSOM-DROP!

MAKES BLOSSOMS SET FRUIT!

Early tomato blossoms often drop off the plants without setting fruit if they are not pollinated properly, especially early in the season when nights are cool. BLOSSOM-SET keeps blossoms on the plants; starts fruit development immediately by chemical stimulation of the flowers. These flowers set fruit instead of dropping off; develop into ripe tomatoes WEEKS EARLIER than unsprayed flowers. The tomatoes are larger, meatier, firmer, and better tasting. YOU'VE NEVER TASTED SUCH WONDERFUL TOMATOES; with better shape and color and more on each plant. Many are SEEDLESS because fruit is set chemically, not by pollen.

Convenient, easy way to spray. Just push the button and — WHOOSH — as easy as that! 12 oz. ready-to-use can (season's supply for 100 plants) . . Postpaid only \$1.95.

PLANTABBS

Complete Plant Food — Easy to Use. Everything that grows in soil grows better with Plantabbs.

Plantabbs contain in concentrated form the same rich food and fertilizing elements used by professional plant and flower growers, landscape gardeners and truck farmers. These clean, odorless, "nuggets of nourishment" make everything that grows in soil healthier, bigger, more beautiful. Will not burn or damage even the tenderest plants.

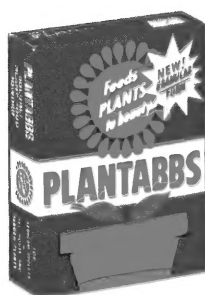

Nothing to measure or spill. Every week or 10 days, just push a Plantabb into the soil 2 or 3 inches from stem of plant. Water or let rain dissolve tablet. If you prefer liquid feeding, use one Plantabb per quart of water.

PRICES: PLANTABBS, POSTPAID

200 Plantabb Tablets for \$1.00

1000 Plantabb Tablets for 3.75

Use Plantabbs For Beautiful Plants. For Beautiful Flowers. For More Vegetables — All thrive on Plantabbs. Proved through successful use for over 35 years. Thrilling results.

GROWERS AND SHIPPERS OF HIGH GRADE VEGETABLE PLANTS SINCE 1909

18 52 YEARS OF SATISFYING SERVICE

Terra-Lite®

VERMICULITE SOIL CONDITIONER USED MANY WAYS ALL YEAR 'ROUND

Perfect soil conditioner for vegetable plants, flowers, potting plants, lawns, trees and shrubbery. Mix Terra-Lite with soil around plants to lighten and aerate heavy soil, give body to sandy soil. Promotes healthy and faster root growth. Terra-Lite holds air, water, fertilizer at the roots, where it's needed. Reduces watering needs and provides better drainage, lets roots stretch and grow. Keeps down weeds and prevents soil crust. Since Terra-Lite is a sterile material, damping off is virtually eliminated.

4 Qt. Bag, weight ¾ lb., Postpaid, with enough fertilizer free to give your plants a quick start.

1—4 qt. bag, Postpaid \$1.25, with free fertilizer.

2—4 qt. bags, Postpaid \$2.25, with two packages of free fertilizer.

Zonolite Company

The Modern Way To Mulch

Cultivating and weeding is eliminated. Protects plant leaves and fruits from soil, soil-borne diseases and insects. Conserves soil moisture. Soil temperatures can be raised about 10 degrees, resulting in more rapid growth, earlier maturity, and increased yields.

After your garden has been prepared and fertilizer worked into the soil, lay this black polyethylene plastic flat on the ground. Slits are made in the film at the location the plant is desired. The plant is set through the slit. Individual pieces of plastic film, already cut, measuring 12 inches square, can be used for each plant. Or, rolls of film 12 inches wide and any length can be put down between the rows in your garden. Weight the edges down with soil. Have the best garden ever. It is re-usable next year.

**PREVENTS WEED GROWTH • INCREASES YIELDS • CUTS LABOR COST
PROMOTES EARLIER MATURITY • CLEANER, BETTER QUALITY CROPS**

One dozen, ready cut mulches, 12 inches square, ready to go around each plant, Postpaid . . . 60¢ per dozen. In larger quantities, any length, 12 inches wide only, Postpaid . . . 3½¢ per foot.

FULWOOD'S PLANT AID KIT Easy To Use—Enough For 12 Plants

We have worked out exactly what is needed to fertilize, spray and mulch one dozen plants of any variety for a successful crop.

FERTILIZER —200 Plantabbs—Complete Plant Food
(Use as instructed on box) \$1.00
